

Certified Data Analyst in R

12 Weeks / 120 Hrs. (2 Hrs. per day)
Medium of Instruction: English

Objective

The proposed course is an excellent blend of knowledge and practice in the field of Data Science and its industrial applications. The course progresses from the scratch about R to a pro-level for achieving the goal of solving critical business and Analytic problems. The Program also offers real life analytical projects to get equipped with strong analytical which makes them highly demanding and employable on completion of the program.

+2 With Maths/Statistics

Eligibility

Prerequisite

- ✓ Candidate must have latest computer/laptop with preferably 4 GB RAM or higher.
- ✓ Internet connection with good speed (preferably 2Mbps or higher)

Rs. 6000/-
(Including GST)

Course Fees

Certificate

Certificate will be provided to the participants after the online test, conducted at the end of the course.

- ✓ Instructor-led live classes
- ✓ Instructor-led hands-on lab sessions.
- ✓ Content Access through e-learning portal
- ✓ Assessment and Certification

Methodology

Intended Users

The users can be people enthusiastic to jump into Data Analytics, as the course is designed to be a ground-up approach where R is taught from scratch. Anyone who wants to get started in data science, will go for this course since R is widely used in the world of data science & Research and growing rapidly in its popularity.

- ✓ Understand the concept of Data Analysis.
- ✓ Analyze the real-life Data Science problems and write programs in R to solve them.
- ✓ Develop efficient algorithms using various constructs of R.
- ✓ Learn and have good skills to create applications

Outcome

Course Content

Certified Data Analyst in R

- Basic Concept of Data Analytics & Programming in R
- Data Visualization in R.
- Statistical Distribution using R
- Inferential Statistics in R.
- Time Series Analysis in R.
- Data Science Case Study.
